Vehicle Description

Here we have the impressive Carthago Chic i51 built on the large 3.0JTD engine with 160bhp. It also has the larger 5,000kg chassis which increases the payload significantly. At 7.78m in length and twin rear wheel, it is truly built for touring.

Above the cab is an electric drop down double bed. Behind the cab is a nice spacious half dinette with the driver and passenger seats that swivel around to join. In the centre of the i51 is the fully fitted kitchen with the added coffee machine and the bathroom opposite. At the rear is the rare twin beds above a garage that can turn into a large double bed.

This comes with an incredible spec including air ride suspension, habitation (roof) air conditioning, cab air conditioning, solar panel, satellite dish, 2x LED TV's, coffee machine, Alde heating system, GasLow, inverter, cream leather, twin reversing camera and so much more.
